

Laboratory / Medicine / Pharmaceutical Refrigerators (with solid door)

Biomedical Refrigeration | LR / ML

The model range LR complies with the Dometic

MODEL	LR 250 G	LR 410 G	LR 490 G	LR 750 G
DIN 58345 (Refrigerators for drugs)	●	●	●	●
GMP Clean Room Class A / ISO 5 (ISO EN 14644-1)	●	●	●	●
Dometic Electronic	●	●	●	●
Key-operated power switch (power ON/OFF)	●	●	●	●
Safety door lock	●	●	●	●
Digital temperature indicator (display : 0.1 digits)	●	●	●	●
Controlled fan cooling system for constant temperature and even temperature distribution across the entire refrigerating chamber. Automatic fan switch-off when front door opens	●	●	●	●
Self-contained alarm system with integrated battery takes over the alarm function and temperature value measurements in case of power failure for at least 48 hours	●	●	●	●
Acoustic/visual alarm signal in case of temperature alarm and power failure	●	●	●	●
All relevant data of temperature alarm and power failure alarm are stored in the alarm history. Such as date and time of start and end, min. max and average temperature	●	●	●	●
Alarm function test : simulation of a temperature rise or drop in order to test the alarm functionality	●	●	●	●
Control via self-diagnostic system	●	●	●	●
Safety thermostat prevents dropping of the cold storage products' temperature below +2°C	●	●	●	●
Interior lighting	●	●	●	●
Door opening alarm	●	●	●	●
Remote transmission alarm signal (via potential-free contact) in case of temperature alarm (change-over contact)	●	●	●	●
Remote transmission alarm signal (via potential-free contact) in case of power failure (change-over contact)	●	●	●	●
Automatic closing of the front door below a door opening angle of 90°	●	●	●	●
Interior made from stainless steel	●	●	●	●
Climate class (ambient temperature range) T (+16°C to +43°C)	●	●	●	●
Smooth castors with stabilizers for optimum flexibility of movement	●	●	●	●
RS485 interface for the display of all operating and control functions (hardware and software settings) via DMN monitoring software on a peripheral device (computer)	●	●	●	●
DMN Software package	●	●	●	●
DCU - Dometic Communication Unit	○	○	○	○

Technical Data

Gross volume	246 l
Net volume	167 l
External dimensions (H x W x D)	1305 x 850 x 785 mm
Inner dimensions (H x W x D)	655 x 680 x 552 mm
Net weight (with standard equipment)	138 kg
Set temperature (preset)	+4°C
Set temperature (setting range) can be adjusted in steps of 0.5 °C	+4°C to +15°C
Cold alarm limit (preset)	+2°C
Warm alarm limit (preset)	+6°C
Control sensor	PT1000 2-WIRE 1/3DIN CL.B
Precision (from -80°C to +180°C)	± 0,2°C
Display sensor, optional	PT1000 2-WIRE 1/3DIN CL.B
Precision (from -80°C to +180°C)	± 0,2°C
Voltage	220-240 V - 50/60Hz (10A)
Power	200 W
Energy consumption	0.90 kWh /24h
Heat emission	172 Kcal/h
Compressor running time	15%
Noise level (at 1m height & 1m distance)	57 dB(A)
Accu data / function time of the control panel when power failure	12V -7 AH / 48 hours
Climate class (ambient temperature range)	T (+16°C to +43°C)
Relative humidity range at ambient temperature	≤ 70% at 32°C
Defrosting technique	automatic (natural)
Refrigerant type	R134a
Door insulation (polyurethane)	100 mm
Casing insulation (polyurethane)	85 - 95 mm
Hold over time	120 min (from +4°C to +10°C)
Safety class	I
EMC directive	2004 / 108 / EEC
Low voltage directive	2006 / 95 / EEC
GMP - clean room classification	A / ISO 5
Material inner body	Stainless steel (V2A - 1.4301)
Material outer casing & door	Galvanized sheet steel (ST02Z-AZ150)
Material Drawers	Stainless steel (V2A - 1.4301)
Material Wire Shelves	Wire DIN 172-2, PA11 coated
Material N-Rack	Polycarbonate, transparent
Color outer casing	White (similar RAL 9010)
Color contrasts	Blue (similar RAL 5002)
ATEX category III, zone 2, interior	-

Interior Equipment & Options (Concerning further information on accessories please see our leaflet "Racking & Storage Systems")

Standard interior equipment	2 Wire Shelves ●
Wire Shelves, recommended / max.	2 / 4 ○
ST-Drawers with Front Cover, max.	2 ○
ST-Drawers without Front Cover recommended / max.	2 / 4 ○
N-Racks	max. 5 per Drawer ○
N-Racks with Front Cover	max. 5 per Wire Shelf ○
ST-Wire Shelves, stainless steel (V2A - 1.4301)	○
RS485 interface	●
DMN Software package	●
DCU - Dometic Communication Unit	○
Ambient temperature sensor	○
Potential-free contact in case of power failure	●
Integrated inlet for external sensor (installed by customer)	●
Additional reference bottle with reference fluid and fitting	○
Smooth castors with stabilizers for optimum flexibility of movement	●
Interior lighting	●
Integrated temperature recorder in form of a circular chart recorder / recording range : -10°C to +20°C	for 24h or 7 days ○
External water cooling	○
Door hinge right	●
Door hinge left	○
Wooden packaging for ocean transport / export	○

ML 320 S

Gross volume : 322 L

Net volume : 274 L

Available as Internal Ex II 3 G EEx nA II T6

ML 360 CS

Gross volume : 357 L

Net volume : 324 L

ML 580 S

Gross volume : 578 L

Net volume : 518 L

ML 355 S

Gross volume : 353 L
Net volume : 340 L

The illustrations show the models of the ML range with standard interior equipment.

Control of the storage temperature and documentation of the temperature changes can – depending on the application – be carried out via an optional temperature recorder (in form of a circular chart recorder) or via the optional DCU, this through the Monitoring & Visualization Software DMN.

ML 1300 S

Gross volume : 1301 L

● standard / ○ optional / - not available

¹ not for deep freezer of the refrigerator/deep freezer combination ML 360 CS

Equipment / Options

Temperature recorder (in form of a circular chart recorder) optional, within the mounted casing for ML model range (optional, integrated for LR model range)

Remote temperature and power failure alarm

N-Racks with/without Front Cover can be subdivided into compartments (optional, for LR model range)

ST Cover - Wire Shelf (optional, for LR model range)

Dometic Electronic

The new and innovative Dometic Electronic (operation and control panel) assures thanks to its **password protected settings menu** optimum protection for your stored preparations.

The menu structure of the **modern and user-friendly graphic display** offers a simple and intuitive utilization.

Settings menu

Extra menu

Beside this the new Dometic Electronic offers :

- Wide range of adjustment and diagnostic facilities as well as additional protection / warning operations (via external alarm operations, histories and individual display signals).
- An optional PT 100 sensor inlet to show the sensor's temperature data on the display as well as forwarding and further processing via a 4 ... 20 mA outlet.
- An optional 20 mA outlet to transmit temperature data of a sensor connected to the electronic.
- Connection facilities for additional (optional) temperature sensors.
- DMN (Dometic Monitoring Network) and the (optional) DCU (Dometic Communication Unit) allows to illustrate texts on the product's display.

ST-Drawers with/without Front Cover, on telescopic runners with safety stop (optional, for LR model range)

Water cooling, external (ex factory) (optional, for LR model range)

PC-Kit (polycarbonate)

AL-Kit (aluminium)

DMN – Dometic Monitoring Network

Universal software for collection, long-term recording and visualization of temperature data.

- Complete activity list (password protected).
- Integrated event and activity history of all appliance components.
- Graphical visualisation of all temperature curves.
- Connection to existing or third-party appliances via network technology (LAN, WLAN, WAN).
- Simultaneous data monitoring and recording.
- Possibility for specific and individually configurable alarm forwardings, e. g. via email, SMS (with optional GSM module) or via DECT.
- Simple and intuitive utilization.
- Essential price advantage compared to a traditional circular chart recorder and its spare parts.
- Economy of time as regular changes of recorder paper, ink and battery is not necessary.

Your essential advantages :

- ▶ One central database for all connected appliances.
- ▶ Remote inquiry of all data possible, even from different sites simultaneously.

DCU – Dometic Communication Unit

Hardware module that notes all operating conditions and passes them through to a central data base – via local network, on which devices are connected.

- Interface connection of Dometic appliances to existent network.
- The DCU offers direct connection to the Ethernet, even wireless, to the serial BUS RS 485, as well as to the central building control system (4 ... 20 mA).
- Possibility of connection of actors (4 ... 20 mA out).
- Digital IN/OUT (customer-specific use of these connections is programmable).
- The integrated USB port allows to write stored data to an external memory stick.
- Recording and storage of relevant data of the appliance.
- The DCU replaces the paper temperature recorder.
- The DCU also works with Dometic electronics which were applied until October 08 (upgrade possible).
- All data are recorded and saved in the data base of the DMN and are available for analysing purposes at any time.
- Possibility of connection of several additional self-sufficient temperature sensors (up to 4 PT1000 & 2 PT100).

Your essential advantages :

- ▶ One integrative system for collecting all temperature relevant appliances and ambients.
- ▶ Many different connection facilities allow flexible upgrades for individual projects.

DMN & DCU in combination offer a highly flexible system that is adaptable to specific customer requirements.

Complete & legally safe documentation of temperature data
Comprehensive applications and diagnostic possibilities
