

UA-Cellular™ for IQ

Cellular Urine Control for Iris iQ®

UA-Cellular™ for IQ

UA-Cellular for IQ is a unique product that contains components at two clinically significant levels. The product evaluates the iQ instrument's ability to identify and quantify white blood cells, red blood cells, non-squamous epithelial cells and crystals.

The product is contained in convenient 120 ml squeeze bottles with a flip top cap dispenser that accurately allots the exact amount of control needed into sample tubes without waste. UA-Cellular for IQ offers an open-vial stability of 30 days and a closed-vial stability of 105 days.

UA-Cellular for IQ is a true cellular control for the Iris iQ urine analyzers, ensuring that instrument WBC, RBC and epithelial cells are accurate for patient samples.

UA-Cellular™ for IQ is Streck's microscopy urinalysis control designed specifically for the Iris Diagnostics iQ® automated urine analyzers.

Stability for UA-Cellular for IQ

Store 2° - 10°C

Closed-vial stability 105 days

Open-vial stability 30 days

Level	Description	Catalog #
Levels 1 & 2	2 x 120ml	213396

Typical RBC, WBC and non-squamous epithelial (NSE) levels for UA-Cellular for IQ

	WBC	RBC	NSE
Level 1	30-60 cells/ul	30-60 cells/ul	10-30 cells/ul
Level 2	180-240 cells/ul	180-240 cells/ul	60-120 cells/ul

* Level 2 also contains crystals

STATS®

Streck offers a free interlaboratory quality control program to all qualifying customers. *STATS* provides convenient data entry, quick turnaround time and relevant reports. Data can be submitted by mail, fax, or e-mail. *STATS* users now have the ability to view and download their stats reports online by visiting www.streck.com. *STATS-Link*® participants will receive e-mail notification that their report is available for access online, eliminating the wait associated with mailing reports. In addition to current reports, archived reports are also available.
